

Threaded, J type & Twin Lock Nipple Systems

A Thirst Quenching Solution requiring a Minimum Investment

A unique, money saving Nipple upgrade giving you a state of the art performance drinker

Instead of purchasing an entirely new drinker system, upgrade your present one by installing PLASSON'S Threaded, J Type or Twin Lock Nipple. With PLASSON'S Nipple Systems you will enjoy the peace of mind of a top performance drinker.

Benefits:

- Drier litter & healthier birds
- Excellent feed conversion
- PLASSON service & spare parts
- An optimal water supply from the world leader in Nipple Systems
- A top-of-the-line performance Nipple
- The professional answer to your watering needs, from day one to maturity

Complete your System by installing a PLASSON Regulator with Adaptor

Pressure Regulator with Adaptor

Designed to fit different Nipple Systems

- Accommodates the highest flow rate
- Offers a wide range of required outlet pressure, virtually independent of inlet pressure
- Quick and simple installation
- Easy to operate
- Flush by half turn or with solenoid
- Reliable trouble free operation
- Operates either from line head or mid line
