

Easy Duck

NEW

PLASSON Easy Duck, designed after years of research and experience, suitable for all type of Ducks growth.

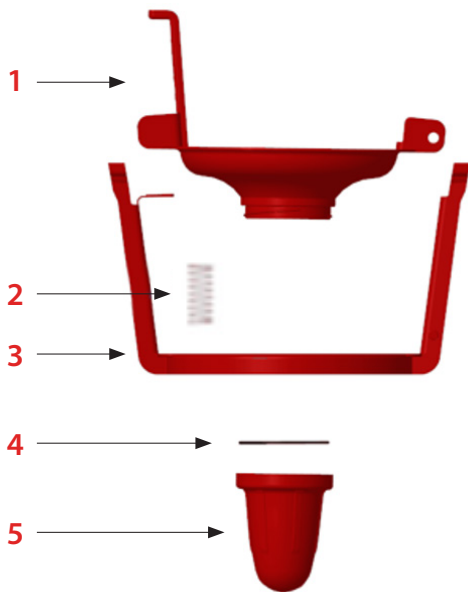

Key Features and Advantages:

- Enables duck to dip entire beak (proven as basic need for duck drinking).
- Automatic cup for fixed level of water.
- Unique feature - Easy Duck Cup (02209993) can be unscrewed for cleaning.
- High quality material for longer product lifetime.

Recommended to be installed on a separate dedicated nipple line.

How does it work?

The Easy Duck is used as of Duck's **third** week of lifetime, requires a different height than Nipple drinking line. Therefore a special additional line has to be installed.
