

Turkey Feeder Pan

Advantages:

- Good circulation and easy movement under the lines thanks to heightened feeding lines
- Feed is always fresh and accessible
- Flexible drop tube and collar reduces bruising
- Ideal for "All In All Out" grow-out
- Uniform distribution of feed in the pan
- Reduced labor
- Easy to install, maintain and clean
- Better feed hygiene
- Flexible and resistant material for intensive use - tried and tested for over 20 years
- Fits all feeding system pipes in the market
